SOMETHING GOOD
LAS VEGAS

CLASSIC SONGS. MODERN GROOVES.

Las Vegas–based. Available for clubs, events, and private bookings.

> *I've booked DJ Something Good at Audio Bar In Las Vegas, and what impressed me most is his ability to connect generations through music. His original remixes modernize classic songs while preserving everything people loved about the originals. Older guests appreciate hearing familiar favorites in a fresh way, while younger audiences discover timeless music that still feels current.*
>
> *Johnny performed entirely with his own remix catalog and held the room of about 200 people for more than three hours with his original material. They were dancing, drinking, and singing along wildly the whole time.*
>
> *He's professional, easy to work with, and has created a lane that's uniquely his. I suggest DJ Something Good when you want your audience talking about how good they feel.*
